

CLEAR PERFORMANCE™

with Valvoline™ Wiper Blades

Surge Blade™

TOP QUALITY TRADITIONAL BLADE

Conventional, long-lasting wiper blade technology

- Reliable streak & squeak-free wipe
- High-quality materials to provide maximum driving visibility
- All-steel frame with black anti-rust finish provides strength and durability
- Easy to install
- Guaranteed quality*
- Meets or exceeds OEM standards
- Available in sizes from 12" – 28"

Surge
BLADE™

Key Benefits of Valvoline™ Surge Blade™ Wipers:

Symmetrical All Steel Frame:

- Heavy gauge steel construction with anti-rust finish provides strength and durability for longer life
- Multi-layer, high quality coatings applied to all-steel frame for enhanced corrosion protection

High Density Molded Rubber Blade Provides:

- Durability, long life, superior wiping edge
- Reinforced rubber blade with a stainless steel spine for stability and consistent streak-free finish over the entire wiping surface

Patented Integrated Bearing Surface:

- Polymer bearing surface improves rotational performance
- No steel cross rivets and no metal-to-metal contact prevents undue wear and corrosion

Original Equipment Manufacturer (OEM) Fit and Function Design:

- Utilizes the same design and technology as OEM wiper blades

Universal Connection System:

- Pre-installed adapter fits on 99% of all domestic vehicles
- New “Hear the Click” J-Hook clip design for proper installation assurance
